-----NOTE-----

No other construction will begin until each approved phase is completed. If more than one phase is started, all work must be done in 90 working days. If 90 days have elapsed before beginning construction, you will need to re-submit a new construction permit for that phase. Or, if you have not completed it in 90 days, the construction permit will have to be re-submitted. Each phase of construction will have its own construction permit.

Periodic inspections will be made by a member of the Environmental Committee. All phases of construction will be inspected upon completion.
